IMPORTANT INFORMATION PRIMARY CARPARK – PLEASE READ!

Dear Parents and Guardians

Please be advised that for the first two weeks of this term there will be some extraordinary disruption to the Primary Carpark. It is expected that most of the disruption will occur in the mornings.

The College had hoped to have most of the major crane lifting work, including structural steel and roof trusses completed during the holidays, however, rain interruptions have resulted in missing the holiday window for this work. Please note that this was despite the best efforts of the builders.

During the next two weeks, the drop off / pick up lane closest to The Pod, will be closed in the morning. **This will be clearly marked, and a substitute Morning Drop off Plan will be put in place to cater for this change. (see below).** Please note that parking spaces will be limited during this time.

We ask for your continued patience and understanding at this time. Please follow any directions you may be given.

Substitute Drop off / Pick up Plan – (Next Two weeks)

1. Morning Drop off

The carpark lane closest to The Pod will be closed. **All** cars are to use the drop off lane closest to the main road. (Parents are encouraged to drop and go as there will be no parking accessible inside the carpark area.)

2. Afternoon Pick up Plan

All carpark lanes should be open between 2.45pm and 3.45pm. This will allow for our normal student collection. I would ask parents not to arrive before 2.45pm as there will be limited space for carparking and queuing.

Road closures are to ensure the safety of our families and the workers.

Thank you for your continued support.

Yours sincerely

Mr Graeme Kirkpatrick
