ANGLICAN
COLLEGE

5 March 2018

Dear Parents/Guardians

“MISSION EARTH” EXPERIENCE

As part of our Geography Unit this term, the Year 3 students will be participating in a day of environmental activities to be held at the College on Thursday 22 March.

The activities will assist the students to consolidate their understanding of the importance of sustainability and the natural environment and identifying differences between man-made and natural features.

The students will learn that fun can be found in natural places, discover the importance of cultural connectedness to the land and the need to care for our natural environment.

The Year 3 students will be involved in a range of activities that will run throughout the College day, beginning at 8.30am and ending at 3.00pm.

Please note that morning tea and lunch will need to be provided as per usual. Due to time constraints, it would be preferable not to use the canteen on this day.

All students are requested to wear their College sports uniform with their College yard hat.

If you require any additional information regarding this experience, please contact your child's class teacher.

Yours sincerely

YEAR 3 TEACHING TEAM
