Dear Parents/Guardians

As part of our Science studies this term, Rescue Rangers will visit the Year 4 students on Wednesday 4 March. Rescue Rangers is an organisation dedicated to the conservation and rescue of beehives and swarms based in South East QLD and Northern NSW.

Mr John Polley from Rescue Rangers will talk to the students about:

- Bee hives
- The structure of a hive
- What a bee keeper's job involves
- How bees collect honey
- Where bee hives are kept
- Types of bees in commercial hives

The visit will enhance the investigations that the students have taken part in during their Science unit, 'Bees in Action'. As part of this presentation, the students will also have the opportunity to taste raw honey and honeycomb which contain pollen. In order for your child to participate in the tasting, we require your permission. Please give your consent for your child by approving this event on Parent Lounge. Be sure to read and **accept** the terms and conditions contained in this letter and then further approve the event. Please ensure you **click on the save box at the bottom of the page**. If you have any concerns regarding your child tasting these foods, please contact your class teacher.

Yours sincerely

YEAR 4 TEACHING TEAM
